The 50/50 fold is used to provide easy deployment of single piece covers  
The cover is unrolled over the center of the pile then unfolded in each direction

### End view of 50/50 Fold

#### DEPLOYMENT;

- UNROLL THE COVER ACROSS THE GRAIN PILE AT THE CENTER OF THE PILE.
- LIFT THE TOP PANEL OF THE COVER AND PULL IT TO THE OUTER EDGE OF THE BUNKER.
- THIS SHOULD COVER HALF OF THE BUNKER WITH MATERIAL WHITE SIDE UP.
- RETURN TO THE TOP OF THE PILE AND PULL THE REMAINING ACCORDION FOLDS TO THE OTHER END OF THE COVER.
- THIS SHOULD COVER THE REMAINING PORTION OF THE PILE WHITE SIDE UP.
